

METAL CEILING | WALL PANEL | SUN-SHADE SYSTEM

DESCRIPTION

Ballesta® Aluminum Linear Ceilings have many different types of systems with numerous specifications. No matter which type to use, it gives you a strong sense of continuity and line, with an obvious effect of visual guidance. Various linear heights and spacing distances make the whole ceiling system more open & three-dimensional, which presents modern styles.

This type of linear ceilings is strongly adapted to the space no matter big area of public transportation stations, exhibition halls & supermarkets, or small area of office buildings and living houses. Except interior decoration, it also can be widely used for outdoors with special windproof structures.

CONSTRUCTION DETAILS

CEILING LAYOUT

PRODUCT DATA

Material: Aluminum Alloy (Galvanized Steel Available if Needed)
Surface Treatment: Powder Coating, PE/PVDF Finish, Heat Transfer Printing, Interior Film, Wood Veneer
Normal Specifications: Thickness 0.6–3.0mm Length≤6000mm
Typical Sizes:

•Customized Specifications are Available.

Normal Perforations:

U85/U135/U185 MULTI-PANEL CEILING

SUSPENSION SYSTEM
